Complete Sick Visit

Fetch covers sick-visit exam fees, saving you around \$50 - \$250 per visit.

Every Tooth, Plus Gums

We cover dental injury and disease in every adult tooth — not just the canines.

Alternative & Holistic Care

Fetch covers alternative therapies (think: acupuncture) when administered by a vet.

Breed-Specific Issues

We cover conditions linked to breed (like: hip dysplasia in German Shepherds).

Behavioral Therapy

Fetch covers up to \$1,000 in behavioral therapy and medicine.

Pets of Every Age

We cover pets from 6 weeks old through their golden years.

Fetch Wellness

Give your pet routine and preventive coverage (think vaccinations and annual exams) and save up to \$735 a year.

Annual exams

A nose-to-tail exam to make sure your pet is healthy and find any hidden signs of illness.

Vaccinations

Protection against infectious diseases like rabies that can cause serious illness or death.

Heartworm, flea & tick prevention

Preventive medication to keep your pet safe from harmful parasites and disease-carrying insects.

Dental cleaning

More than just a good brushing. A comprehensive oral exam to detect and treat dental disease.

Spaying or neutering

Procedures with health benefits like preventing certain cancers and behavioral issues.

Blood, urine & fecal tests

Tests to show how well your pet's body is functioning, catch illnesses early and detect harmful parasites.

The Best Coverage at the Best Price

Fetch is individually rated and direct bill, which means we make it easy for employees to personalized their plan to fit their pet and budget. Prices average \$35/mo for dogs and \$25/mo for cats.

Cost is based on three factors: age, breed and location.

- **Why age?** Younger pets tend to cost less to insure than older ones
- **Why breed?** Since certain breeds are prone to different medical issues
- **Why location:** The cost of vet care varies from place to place

Fetch presents the optimized coverage configuration based on the pet's information and then customers can find a price fits their budget by adjusting their deductible, annual coverage amount and reimbursement rate.

- Choosing a higher deductible will lower the monthly price
- Choosing a lower annual coverage will lower the monthly price
- Choosing a lower reimbursement rate will lower the monthly price

- Alternative for QUICK integration
- Can securely capture customer credit card
- Simple SDK to “pop” into any application

Fetch Purchase SDK

The Purchase SDK allows a customer to purchase through a partner website, but allows Fetch to capture (securely) the credit card details for subscription. In the live example below, a breeder allows for users to checkout on the purchase of a puppy, and encourages the sign up for insurance through our API.

Partner Website

Purchase flow. Multi-step process on our partner's website to purchase a puppy.

The screenshot shows the 'Pickup / Delivery' step of a multi-step purchase process. The top navigation bar includes links for 'PUPPIES', 'BREEDS', 'EXPERIENCE', and 'SUPPORT'. The main content area features a photo of a puppy and a teddy bear, with a price tag of \$1196. Below the photo, there is a section for 'Pickup / Delivery Options' with a form to enter a 'Destination Zip Code' (10006) and a 'Manage addresses...' link.

Quote API is Called

Partner uses our quote API to encourage enrollment in monthly insurance plan.

The screenshot displays the 'Marty's Quote' section. It features a large blue box with the text 'Marty's Quote' and a price of '\$45.14 per month'. Above this, it states 'The following quote applies a 10% Lifetime Discount and is based on your Location, Puppy Age and Breed.' Below the quote, a table lists the plan details: Annual Coverage (\$15000), Annual Deductible (\$300), Co-Pay (20%), and Puppy Rebate (\$50). An 'ENROLL NOW' button is at the bottom.

Credit Card Payment

A popup allows the customer to enter credit card info and to securely enroll with Fetch

The screenshot shows the 'Card details' form. It includes input fields for 'Name on card', 'Card number', 'MM / YY', 'CVV', and 'Billing zip/postal code'. There is a checkbox for 'I have read and accept the Terms of Sale.' and a 'Submit' button. At the bottom, it states 'All transactions secured by stripe' and links to 'Terms & Conditions' and 'Privacy Policy'.
